

Happy Hours School

HHS NEWSLETTER

"The color of springtime is in the flowers; the color of winter is in the imagination."

- Terri Guillemets

VISION

We have a vision of creating a community of connected, confident, Indian Global Citizens.

Our goal is to motivate children to learn 'how to learn' with passion and curiosity.

We want students to gain an impetus for lifelong learning and become educated and informed leaders of the future who will collaborate, work and create to improve the quality of life.

MENTOR'S MESSAGE

Dr. Sangeeta Bhatia

Dear Readers, It is always a matter of pride for educators when they see the learners acquire the skills and imbibe the values for life. At HHS, we firmly believe in the ethos that are enshrined in the very roots of our vision. We envisage our children reaching the pinnacle of success, globally, yet remaining humbly rooted to the core values that define human character. This amalgamation of moral education with 21st century skills is the need of the hour. It is very interesting to note that NEP 2020 also envisions the foundational pillars of Access, Equity, Quality, Affordability and Accountability to transform India into a vibrant knowledge society and global knowledge superpower. We are at the helm of myriads of changes as per the policy and gearing to witness the sweet fruits of transformation through success stories that are waiting to be created at HHS.

ACHIEVEMENTS AT HHS

A proud moment to celebrate for HHS as Aaradhya Jain of grade 4 has been felicitated by 2nd prize in Math-O-Couture competition in 'The Annual Inter-School Fest' conducted by Bal Bharti Public School, Pitampura.

Arunya of Grade 2 won a prize in Festive Fiesta, 2021. She performed on the topic Eco friendly products related to festivals.

Fun with Numbers

Learning numbers for toddlers can be a fun activity. They understood how to count through games like ten frames, counting money up to 209 rupees, etc.

Tiny Tots

Cookery Activity

"Life is what you bake it."

The children loved making ladoos of bananas, chocolate, and popsicles, donuts, oreo cakes, and chocolate cakes in the month of joy. The kids learn ways to make scrumptious cooking without fire.

Water Filtration

Water filtration is the process of removing or reducing the concentration of particulate matter, including suspended particles, parasites, bacteria, algae, viruses, and fungi, as well as other undesirable chemical and biological contaminants from contaminated water. The children of class 1 learned how to filter sand water.

Facts about Seasons

'Time will pass and seasons will come and go.'

Tiny tots discussed some facts about the seasons with their teacher and understood the topic in an attractive and demonstrative manner.

Winter Season Art

Winter is one of the most important seasons in India. The students decorated paper caps using the waste material. It enriched their knowledge about the winter season and the value of using waste material and make something useful.

Say No to Junk Food

The students of class II made posters to tell about the harmful effects of junk food and why is it not good for our health, This activity was conducted in a flip classroom manner.

On Top of the World

Paragraphs play a vital role in writing because they provide a framework for organizing the ideas in a logical order. The students of Grade 4 wrote a paragraph on the topic 'On top of the world' wherein they put down about their happiest moment of the life that they have experienced and will experience in the future by achieving their goals. This activity helped students to showcase their ideas in the form of creative writing.

Languages

More about Endangered Animals

An activity based on research was given to the students of Grade 3, where they researched about any five endangered animals or birds and the reasons of why are they endangered. This activity helped the children to identify and analyze information about the endangered species.

खेल -खेल में जानों

देश के दर्शनीय स्थलों के चित्र दिखा कर बच्चों ने 5 -6 वाक्यों में उनके बारे में बताया | इस गतिविधि का उद्देश्य बच्चों को अपने देश के दर्शनीय स्थलों व इतिहास की जानकारी देना था |

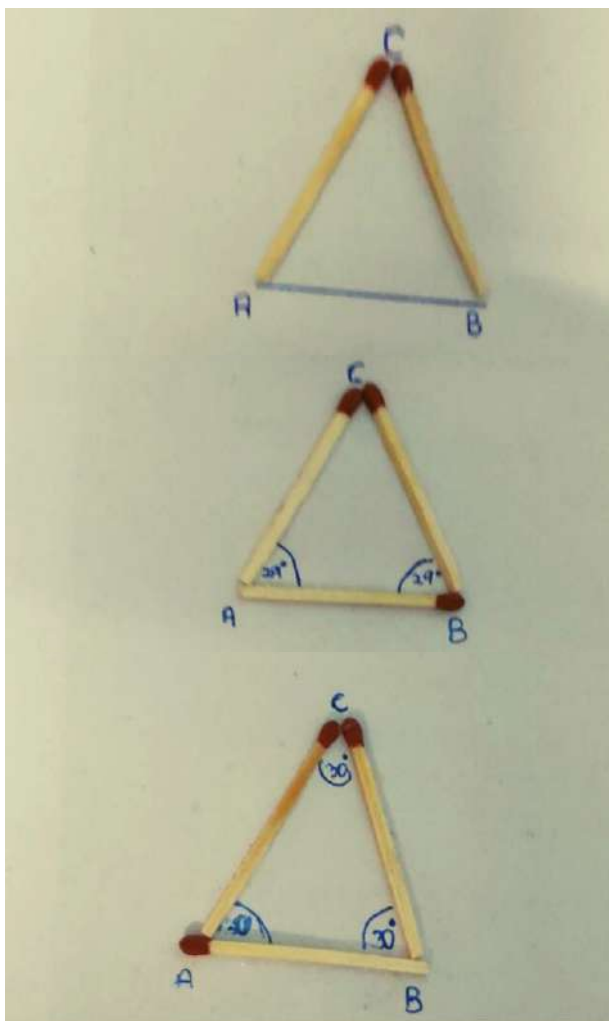

आशु भाषण गतिविधि

भाषण मनुष्य के द्वारा इस्तेमाल किए जाने वाले संचार का मुख्य रूप है| भाषण बोलने की शक्ति है| किसी के विचारों और भावनाओं को अभिव्यक्त करने की क्षमता| आशु भाषण का अर्थ है किसी विषय पर बिना किसी तैयारी किए स्वाभाविक रूप से बोलना और तर्कों के माध्यम से अपनी बात को सिद्ध करना| कक्षा में बच्चों को विभिन्न विषय दिए गए जिस पर उन्होंने अपने सुंदर विचार प्रकट किए |

Learning by Doing

An activity based on research was given to the students of Grade 3, where they researched about any five endangered animals or birds and the reasons of why are they endangered. This activity helped the children to identify and analyze information about the endangered species.

Mathematics

Ramanujan Quiz

Students of classes III to V participated in the Quiz based on facts and the contribution of Ramanujan in the field of Mathematics. A short video was presented and a discussion was done based on the history and achievements of Ramanujan in Mathematics as a subject.

Physical and Chemical Change

The students of Grade 5 performed an activity on physical and chemical changes. They explained the meaning of physical and chemical changes by doing different activities, like, oxidization of apple, made solution of water and sugar, salt & lemon.

Science

Best out of Waste

The students of classes I & II showcased their creativity with toffee wrappers by making beautiful flowers and pencil stands. On the other hand, the students of class IV made useful things using the junk. The activity developed the ability to think create something useful.

Acid Rain Experiment

The students observed that after a day the leaf in vinegar turned dull and brown in color whereas the leaf kept in water remained fresh. The aim of the activity was to observe the effect of acid rain on plants. It gave students hands-on experience to know the effects of acid rain on our environment.

Social Science

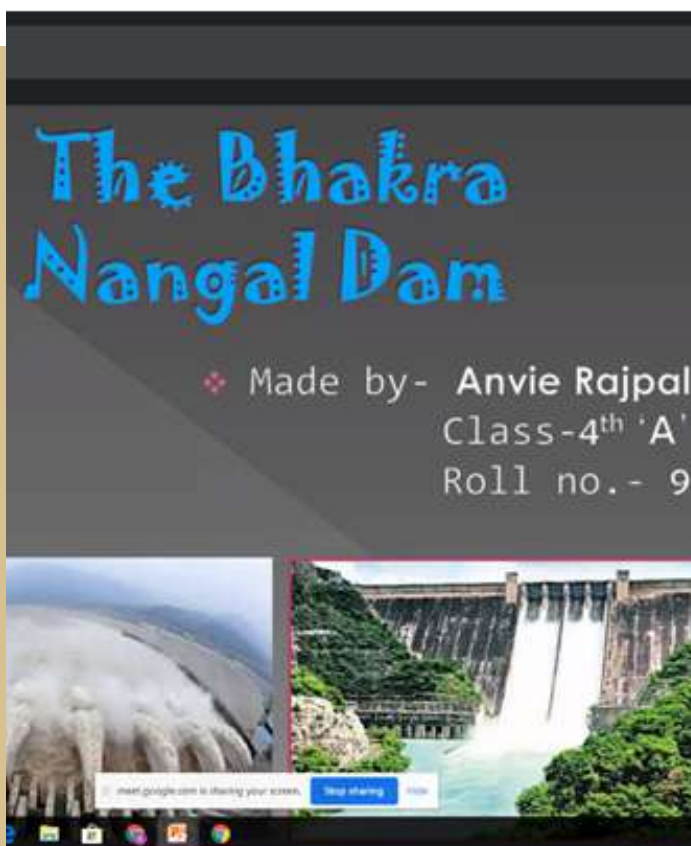

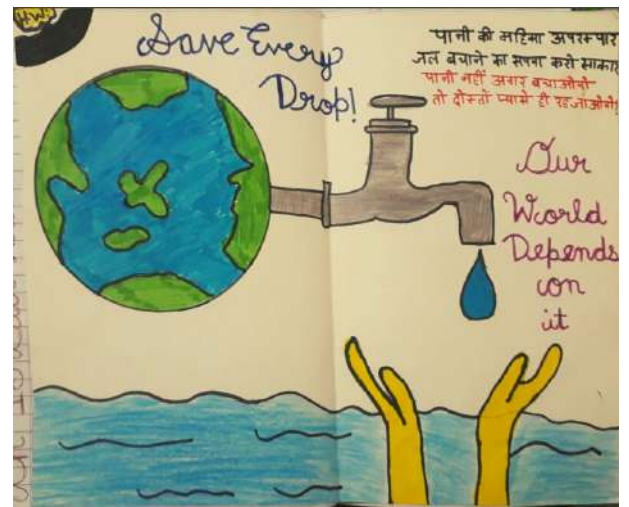

Election in Countryside

The students of class III eagerly took part in the Utsukh Village elections. There were few members of Gram Sabha and the students elected their representatives. This activity helped the students to understand the concept of working of Gram Panchayat.

Conservation of Water Resources

The students of class IV explained the need to conserve water. The students made beautiful posters to explain water conservation and what are the sources of water.

Research & Presentation on Dams

The students of class IV prepared PowerPoint presentations on Dams. They researched why dams are built, which are the states where dams are constructed. They also learned how to locate the states on map where these dams are built.

CELEBRATIONS

"CHRISTMAS WAVES A MAGIC WAND OVER THIS WORLD, AND BEHOLD, EVERYTHING IS SOFTER AND MORE BEAUTIFUL."

CHRISTMAS ALL THE WAY

CARE AND SHARE PROGRAM

Christmas is a festival of joy, sharing, and giving. Christmas is also celebrated to rejoice in the birth of Jesus Christ. Christmas was celebrated virtually where all the students and teachers participated with great zeal and zest. A Care and Share Program was organized by the school to help needy people by donating clothes and food items. This program aroused the value of love, care, share and empathy among all.

FOOD FESTIVAL

Food brings people together”.

HHS organized a Food Fest for kids and their mothers to celebrate the month of joy, December. It was a fun-filled and cherished day for all.

FUN DAY AT SCHOOL

"Into each day, put one teaspoon of Good Spirits, a dash of Fun, and a heap of laughter".

Tiny tots of HHS had a fun day at school wherein they enjoyed and played games. It was a day of love, fun, and thrill for the kids as well as the parents.
